5000-15000 rubles per year

MEDICAL CLINIC

Opened this summer, Medical Clinic consists of 3 blocks: educational, clinical/diagnostic, and research/production. Research block includes 6 academic laboratories: clinical-diagnostic, immunological, microbiological, and laboratories of osteoporosis, genomic medicine and neurophysiological research.

The Clinic is equipped with a simulation center, modern dental equipment with 3D apparatus, and a spacious lecture hall.

It is planned to develop a broad range of scientific topics: from hematology to molecular biology and cellular technologies.
